

## ***Install Training Wheels***

For the assembly of the training wheels for 16in bike, please follow the instruction below:

1. Attach the training wheel to training wheel bracket.

2. Remove the outside nut on both sides of the rear axle. Do not loosen or adjust the inner nuts on the axle.

3. Place Bracket Brace Plate over bike axle by inserting the tab into the open space of the bike frame. Place the training wheel brackets on the axle and adjust bracket height. Secure with nut and tighten.

4. Both training wheels should be with a distance of 1-1.5cm to the ground when the bike is balanced on its wheels.
